- Downtown lighting subsurface preparation project update & Discuss need for seeking funding for remainder of lighting project at Fall Town Meeting
 - Project start has been extended with a time only, no cost change order to the spring to avoid having cones bolted to the light bases on the sidewalk during the winter. Prep work will begin in March and be completed in April. Posts, lights and attachments still need to be purchased.
 - If town approves \$263K funding, town will have paid 47% of the +\$700K project, leveraging a non-town source.
 - Lighting project started in 2009 with the Long Term Planning Committee and continued to the current Strategic Plan.
 - Jodi pointed out this is a one-time expense with capital money. Our .75% meals tax generates +\$200K annually. The cost of the town meeting request is one year's meals tax.
 - Without town meeting approval, Brendhan recommends we do not move forward on the subsurface work and return the \$160K grant money. Dana cautioned that future Mass DOT grant applications could be viewed with suspicion should we return the grant money.

 - Funding for Folsom Pavilion has support and is expected to get town meeting approval.
